

LEARN ITALIAN AT “ITALIA PER PASSIONE”

Italia per passione is an Italian Language School founded in 2008. We offer language courses based on oral production and fast and pleasant learning, in small groups of up to 8 people.

ABOUT US

Our motto is *Language courses in immersion* and the school has a great success both for language courses and for culture courses (cinema, literature, art, music, cooking).

Who Are We?

All the professors are native speakers, graduates and qualified teachers, and passionate about their jobs!

How Do We Work?

The school is based on the CEFR, the Common European Framework of Reference for Languages, the EU standard for teaching foreign languages. We also issue language certificates.

The school offers language courses based on real everyday situations. We work only with small groups because we believe that this is the best way to learn effectively: we arrange our teaching techniques according to the level, objectives and interests of our students.
